

I listen to Air 1 everyday, it is a station I can leave on while my children are in the car and I don't have to worry about what they might hear. Air 1 is a great christian station where everyone can hear about God's love for them. Air 1 has helped many people overcome serious personal issues. Removing this station will be taking away many peoples hope. There is hope in Jesus and some may only get to hear that hope through great stations like Air 1. Please consider this before you decide to take away someones future.
